## Summary

My name is Adrian Aguilar, I am a Full Stack Developer just now taking my first steps on to the field. I live in Sacramento, CA and I'm currently enrolled in a UC Davis Full Stack Development program where I am honing my skills every day and adding new ones to my repertoire.

My goal is to take the skills learned in my current program into a career and becoming a valued member of a team. My past jobs have given me the skills to work in a team environment as well as working alone when tackling tasks. I am eager to find my place in a company in need of my skills.
